**GitHub:** [github.com/oooomar896](https://github.com/oooomar896)

## PROFESSIONAL SUMMARY

Visionary **Executive Software Director** with over 5 years of experience in architecting high-impact digital solutions. Expertise in **AI Systems, Odoo ERP, and Full-Stack Mobile/Web Development**. Proven success in leading technical teams, managing project lifecycles for major corporations (TPS, Bacura), and delivering 20+ successful applications with over 15,000 downloads.

## PROFESSIONAL EXPERIENCE

### Executive Software Director | Bacura Tec ([bacura.sa](#))

Jan 2025 - Present

Leading digital transformation initiatives, overseeing software engineering teams, and architecting scalable enterprise solutions for Saudi markets.

### Executive Software Director | TPS ([tps-ksa.com](#))

Jan 2025 - 2026

Directed large-scale software projects, optimized technical workflows, and ensured successful delivery of complex system integrations for major clients.

### Software Developer (Apps & Platforms) | Mulhimah Real Estate ([mulhimah.sa](#))

Jun 2023 - 2025

Built award-winning real estate platforms. Developed 'Swap App' (10k+ downloads) and 'Auction Live', integrating real-time video and secure financial transactions.

### Investment Applications Developer | Turkish Investment Company

Jan 2020 - Jun 2023

Engineered specialized fintech solutions for investment tracking and financial data analysis, focusing on high precision and secure data management.

## FEATURED PROJECTS

### Swap App - Barter Platform (Flutter/Firebase)

[View Project Online](#)

A revolutionary multi-user bartering application with smart matching logic.

### Research Assistant (Next.js/Supabase)

[View Project Online](#)

Comprehensive academic publishing platform for researchers with AI-driven tracking.

### Auction Live Mobile (React Native)

[View Project Online](#)

Real-time live auctioning system with interactive bidding and video streams.
